Constituent / Stakeholder Email Template

Subject: A3475 and A5448 — Historic Burial Ground Legislation

Dear [Senator/Assemblymember Last Name],

I am writing as a [constituent / preservation professional / municipal official / historian / descendant / community member] regarding A3475 and A5448, two measures concerning historic burial grounds in New Jersey.

A3475 would establish a statewide framework for defined family and private burial grounds, while A5448 would incorporate defined abandoned cemeteries into municipal land-use planning, mapping, site-plan review, and long-term care. I am particularly interested in [identify provision, local experience, or implementation concern].

I encourage your office to review the bills and consider the following information as the measures move through the legislative process: [2–4 sentences of local facts, documented experience, technical concern, or implementation recommendation].

Thank you for considering this information. I would be glad to provide additional documentation or speak with your staff about this issue.

Sincerely,
[Name]
[Municipality / Organization, if applicable]
